Website Community

E-Sport Arena

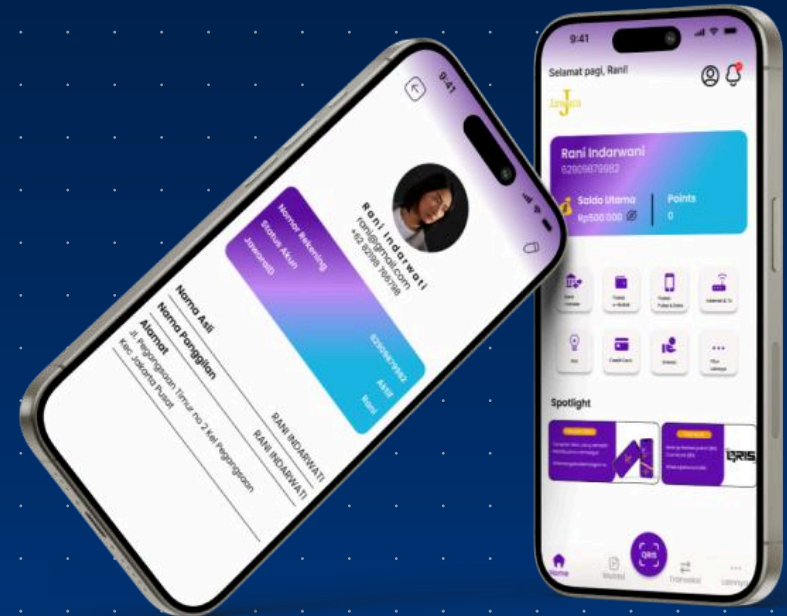

The E-Sport Arena Community website was designed with a focus on a seamless user experience. Key features include event registration, merchandise purchases, user profiles, and About Us & Contact pages. It utilizes a clear user flow, modern visual design, and interactive prototypes to strengthen the community's digital identity.

Mobile Banking Apps

JAWARA APPS

Bank Jawa is a modern digital banking platform designed to provide easy banking services, safe, and fast. With a main focus on financial inclusion, Bank Jawa is here to serve various levels of society with intuitive interface design and optimal user experience (UX).

Food Delivery Order

JAJANIN APPS

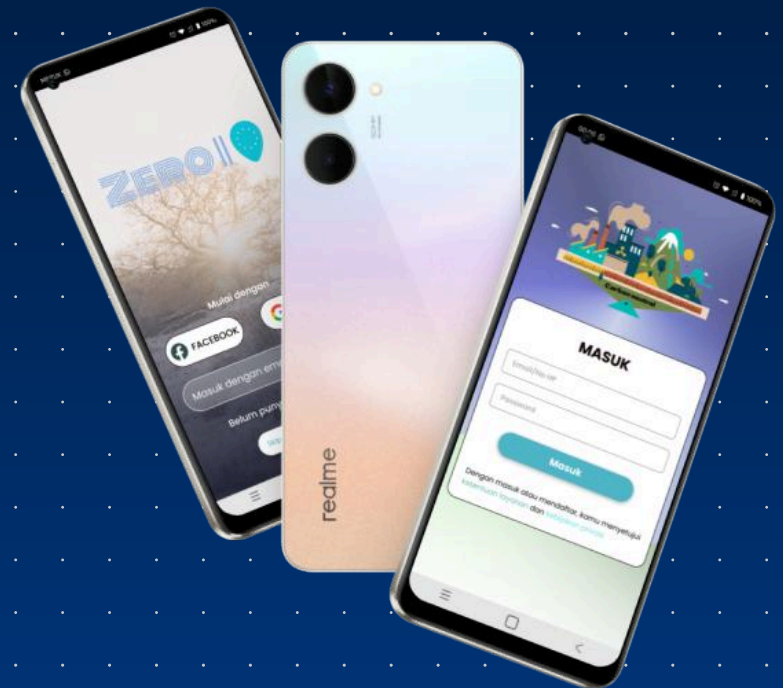

The Jajanin app is designed with a friendly and efficient user interface, prioritizing speed in finding and ordering food; this is reflected in the homepage that presents personalized recommendations and easily accessible categories, restaurant pages that display menus with high-quality images and clear customization options, and a transparent and streamlined basket and payment process for a seamless ordering experience from start to finish.

Emissions track record apps

ZERO APPS

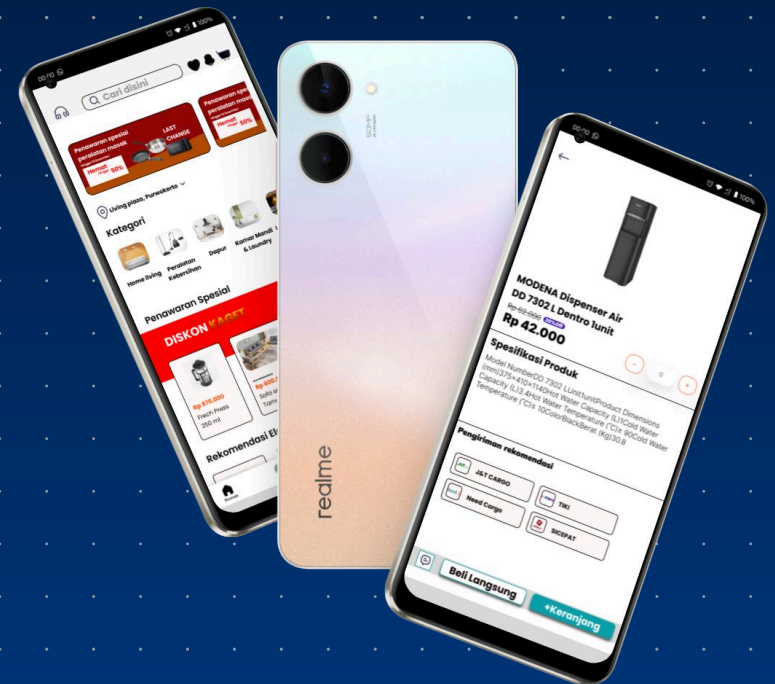

The Zero app is designed with an intuitive UI design that makes it easy for users to record and understand their personal carbon emissions through clear data visualizations. The app's community page is designed to resemble a social media platform, allowing users to interact, share sustainability tips, and motivate each other through features such as posts, comments, and leaderboards. Meanwhile, the donation feature provides a transparent interface to select and support verified environmental projects, complete with project details, donation progress, and easy payment flow.

Home Furnishing Retail

Need APPS

The UI design of the home supply app focuses on high-quality product visualization and inspiring navigation through a homepage featuring trends and collections, an easy-to-filter catalog, and product detail pages complete with visualization options and reviews, to help users find and purchase their dream decor or furniture.

NEED LANDING PAGE

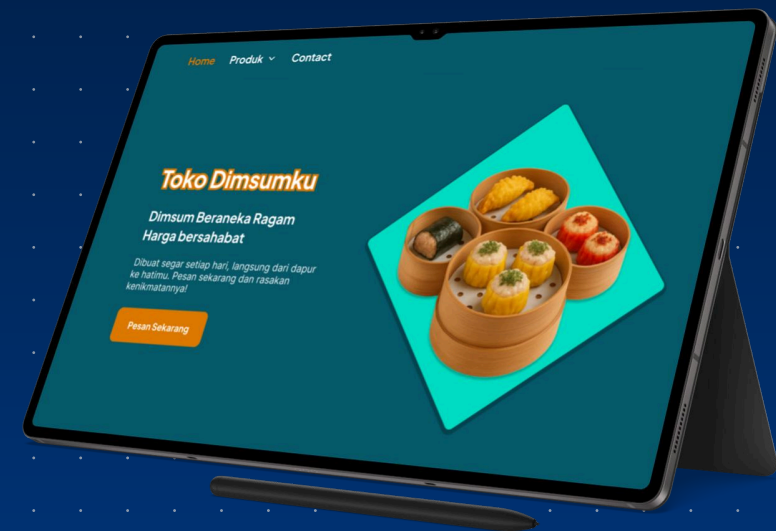

The UI design of the home supply app focuses on high-quality product visualization and inspiring navigation through a homepage featuring trends and collections, an easy-to-filter catalog, and product detail pages complete with visualization options and reviews, to help users find and purchase their dream decor or furniture.

Landing Page Dimsum Katalog

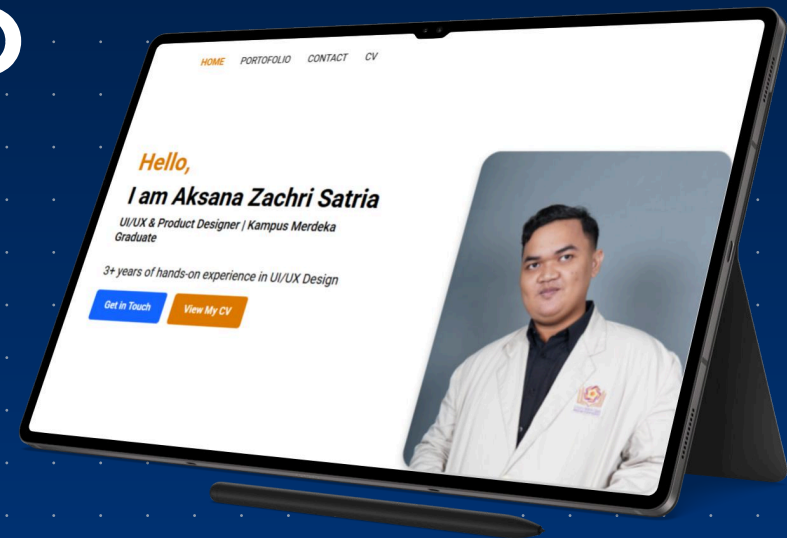

DIMSUMKU

Landing page ini dirancang sebagai katalog digital yang menyajikan berbagai pilihan dimsum secara menarik dan menggugah selera. Fokus utama ada pada visual makanan, navigasi yang mudah, serta flow pengguna yang langsung diarahkan untuk pesan cepat via WhatsApp.

WEBSITE PORTOFOLIO

Sebuah landing page personal yang dirancang untuk memperkenalkan siapa saya, apa yang saya kerjakan, dan bagaimana saya mendesain solusi. Mulai dari headline yang kuat, showcase project, hingga CTA kontak — semuanya dikemas dalam tampilan yang clean, responsif, dan mewakili style pribadi saya.

THANK YOU

I believe great design is born from strong collaboration. If you're looking for a creative partner who can help bring your vision to life, let's start a conversation!
